

Amazon Comprehend — Telecom Reviews (Per-Line Sentiment Analysis)

Generated on: 2025-10-24 13:52 UTC

Review 1: The network coverage in my area is excellent; I rarely experience dropped calls.

Sentiment: Positive

Confidence: Positive = 0.997, Mixed = 0.0017

Notes: Very strong positive tone about reliability.

Review 2: Customer support took too long to respond and the representative was not helpful.

Sentiment: Negative

Confidence: Negative = 0.998, Mixed = 0.0016

Notes: Clear frustration; strong negative signal.

Review 3: The new data plans are reasonably priced and include extra data for streaming.

Sentiment: Positive

Confidence: Positive = 0.842, Neutral = 0.152

Notes: Mostly positive with mild neutral phrasing.

Review 4: I faced intermittent internet slowdowns during peak hours which is frustrating.

Sentiment: Negative

Confidence: Negative = 0.999, Neutral = 0.0009

Notes: Complaint-driven tone; strong negative sentiment.

Review 5: The store staff helped me set up my new SIM quickly and explained the plan well.

Sentiment: Positive

Confidence: Positive = 0.991, Neutral = 0.0085

Notes: Positive customer service experience.

Review 6: Billing was confusing this month; I received a charge I didn't expect.

Sentiment: Negative

Confidence: Negative = 0.978, Mixed = 0.0083

Notes: Strongly negative due to complaint about billing.

Review 7: The mobile app is user-friendly and the outage alerts are timely and useful.

Sentiment: Positive

Confidence: Positive = 0.999, Mixed = 0.000065

Notes: Very confident positive sentiment.

Review 8: I had to wait on hold for 40 minutes to resolve a roaming issue — poor experience.

Sentiment: Negative

Confidence: Negative = 0.999, Neutral = 0.0009

Notes: Extremely negative; strong complaint.

Review 9: The speed during video calls is impressive; no lag when using 4G/5G.

Sentiment: Positive

Confidence: Positive = 0.999, Mixed = 0.000075

Notes: Confidently positive; no negative words.

Review 10: Promotional offers are good, but the fine print on contract terms needs clarity.

Sentiment: Mixed

Confidence: Mixed = 0.998, Positive = 0.0013

Notes: Balanced positive & negative elements → Mixed.

Summary:

Positive: 5 reviews (Lines 0, 2, 4, 6, 8)

Negative: 4 reviews (Lines 1, 3, 5, 7)

Mixed: 1 review (Line 9)

Neutral: 0 reviews

Interpretation: The telecom dataset is polarized, with roughly equal positive and negative feedback. The overall 'MIXED' sentiment in the combined file-level job accurately reflects this near 50–50 split.
